

Please do not overturn New Jersey's "Do Not Call" law. I do not want companies calling me just because I have done business with them in the past 18 months. Think about how many businesses I interact with in 18 months. I would have CONSTANT phone calls. I love the fact that I can finally sit through dinner and sleep late on Saturday without annoying telemarketing. If I want a new credit card or health insurance I will research my options on line. I do not need a phone call. Thank you for your consideration.
